WORLD LANGUAGES - FRENCH

PATHWAYS
Finding a road to success

- This is a suggested **MAP** for students interested in this **FIELD**. It does not represent a contract or guarantee course availability.
- Following the **MAP** provides students with the best chance for course transferability.
- This **MAP** is designed for full-time students, but the suggested courses apply to all! Customize a path by **ADDING** semesters, including **SUMMER.**

Choose ONE course from each row unless otherwise indicated

Semester 1	Core42?	Credits	Notes
ENG-101	Yes	3	
HIS-101, HIS-102, POL-101	Yes	3	
COM-101, COM-104, COM-106, COM-110, COM-200	Yes	3	
FRN-101	Yes	4	
GLS-151		3	
COL-101		1	
Semester Hours: 17/Cumulative Hours: 17			
Semester 2	**Core42?**	**Credits**	**Notes**
FRN-102	Yes	4	
Core42 Natural Sciences course w/ lab (see catalog)	Yes	4	Must take lecture & lab
ART-1500, NUS-231, LIT-271	Yes	3	
ANT-102	Yes	3	
ENG-102	Yes	3	
Semester Hours: 17/Cumulative Hours: 34			
Semester 3	**Core42?**	**Credits**	**Notes**
Core 42 Natural Sciences course (see catalog)	Yes	3	
PHL-201	Yes	3	
SOC-101	Yes	3	
FRN-201		4	
MAT-155 or Core42 MAT course (see catalog)	Yes	4	
Semester Hours: 17/Cumulative Hours: 51			
Semester 4	**Core42?**	**Credits**	**Notes**
CPT-103, CPT-115, EDU-222		3	
ART-1500, MUS-231, LIT-271	Yes	3	
COM-215		3	
FRN-202		4	
Any GLS, GLC, or Global Certificates course (see catalog)		4	
Semester Hours: 17/Cumulative Hours: 68			
Semester 5	**Core42?**	**Credits**	**Notes**
Semester Hours: 0/Cumulative Hours: 0

Pathway Considerations

World Languages - French: Info and Requirements

- https://www.stchas.edu/academics/departments/Foreign-Language or visit www.stchas.edu/Pathways
- Please note, Credit Hours (CH) may vary. For example, if you choose a Foreign Language (4 CH) option rather than THE-122 (3 CH).
- IMPORTANT: Core42 has specific requirements if you're pursuing an A.A. degree, often requiring you to take courses from different fields. As an example, for Natural Sciences you cannot take all CHM courses or all BIO courses. You must take a mix of Science courses. Similar restrictions apply to other Core42 categories. Please speak to an Advisor to make sure your courses count towards transfer or a degree.
- For most A.A. degrees, 64 credit hours are required, including the Core42 requirement.
- COL-101 is required for first-time freshman; most A.A. degrees require you to complete one of the following: CPT-103, CPT-115, or EDU-220
- Transferability of courses is dependent on the transfer institution; however, SCC makes every effort to make sure that courses in your Pathway transfer to most state, public universities and colleges.
- To earn your A.A., you must have a 2.0 cumulative GPA and take a minimum of 15 degree required credits at SCC.
- If you have previously studied a foreign language, you do not have to enroll in a beginning course. You should meet with the Foreign Language Chair or an Advisor to determine your correct placement level.
- With previous foreign language study, you may be eligible for up to 8 hours of retroactive credit. After completing a higher-level course, you can receive credit for the bypassed course(s). Not that certain restrictions may apply, and true native speakers are not eligible for retroactive credit.
- Foreign Language students are encouraged to also complete GLS-101 (Introduction to Global Studies) and follow the guidelines to earn a Certificate in Global Studies concurrently with the Foreign Language field.

Some Important Things About Pathways…

1. Before **registering** for courses, make an appointment with an **Academic Advisor**. They will help make sure you're taking the right courses and sticking to your path.
2. For course descriptions, visit https://www.stchas.edu/academics/course-descriptions
3. To organize courses for your upcoming semesters or to register online, visit the **Student Planning App** in the SCC Portal.
4. The order in which you take your courses may be important. Please check with your **Academic Advisor** to make sure you're not forgetting about course **prerequisites**.
5. If you have questions about your Financial Aid eligibility, contact a **Financial Aid Counselor**.
6. The courses in this map were hand-selected to help you achieve your educational goals, which often includes **course transfer**. SCC does its best ensure all courses **transfer**, though transferability is always up to the transfer institution. (See Core42 for exceptions to this rule.)
7. The simplest plan is for you to **stick to the path**. Changes to maps can be made, but please speak with an advisor, a teacher, and/or potential transfer institutions to ensure your substitutions fit your educational goals and needs.
8. Finding a career interest can help you find your Pathway. Consider visiting Career Services—they can help!
9. If you're interested in jobs based in Manufacturing & Industry, contact **Workforce Development**.
