ST. CHARLES COMMUNITY COLLEGE

MULTIMEDIA & WEB DEVELOPMENT – WEB DEVELOPMENT

PATHWAYS
Finding a road to success

- This is a suggested **MAP** for students interested in this **FIELD**. It does not represent a contract or guarantee course availability.
- Following the **MAP** provides students with the best chance for course transferability.
- This **MAP** is designed for full-time students, but the suggested courses apply to all! Customize a path by **ADDING** semesters, including **SUMMER.**

Choose ONE course from each row unless otherwise indicated.

Semester 5	Core42?	Credits	Notes
Semester Hours: 0/Cumulative Hours: 0			

Pathway Considerations

Multimedia & Web Development – Web Development A.A.S.: Info and Requirements

- https://www.stchas.edu/academics/majors-degrees-certificates/Multimedia-and-Web-Development-AAS
  or visit https://www.stchas.edu/Pathways
- Students who successfully complete CPM 210 or CPM-250 as an approved elective may be eligible to sit for Adobe Certification Exams. Consult with the Digital Media & Business Technology Department Chair for more details about earning these additional industry standard credentials for Adobe Photoshop and Adobe After Effects.

Some Important Things About Pathways…

1. Before **registering** for courses, make an appointment with an **Academic Advisor**. They will help make sure you're taking the right courses and sticking to your path.
2. For course descriptions, visit https://www.stchas.edu/academics/course-descriptions
3. To organize courses for your upcoming semesters or to register online, visit the **Student Planning App** in the SCC Portal.
4. The order in which you take your courses may be important. Please check with your **Academic Advisor** to make sure you're not forgetting about course **prerequisites**.
5. If you have questions about your Financial Aid eligibility, contact a **Financial Aid Counselor**.
6. The courses in this map were hand-selected to help you achieve your educational goals, which often includes **course transfer**. SCC does its best ensure all courses **transfer**, though transferability is always up to the transfer institution. (See Core42 for exceptions to this rule.)
7. The simplest plan is for you to **stick to the path**. Changes to maps can be made, but please speak with an advisor, a teacher, and/or potential transfer institutions to ensure your substitutions fit your educational goals and needs.
8. Finding a career interest can help you find your Pathway. Consider visiting Career Services—they can help!
9. If you're interested in jobs based in Manufacturing & Industry, contact **Workforce Development**.
