Graph 19 shows that financial aid dollars from Pell Grants have exceeded the Direct Loan Program (formerly Stafford Loans) since FY14.

Current accounting standards require public institutions to treat Pell Grants as government grants and contracts for financial reporting purposes. Prior to FY10, Pell Grants had been included in tuition and fees revenue. In order to present the relative significance of financial aid to college operations in a clear and concise manner, financial aid for all years presented in this table are stated as a percentage of total operating revenues (1/19/2012 SW).
