A Quick Guide to Nursing Resources

Use this guide as a starting point for finding relevant books, e-books, films and journal articles pertaining to nursing. Citation help can be found through the library homepage.

Books and Films

Search the SCC collection of 70,000 print books, 170,000 eBooks and 18,000 streaming films from the library homepage. Also search MOBIUS (27 million books) and request books from other Missouri colleges and universities.

Databases and Journals

The following databases are available from the library web site and can be accessed off campus with a valid SCC ID number. Select “Articles-Databases” link from the library’s homepage, click on a database and enter your last name and your student ID number followed by “sc,” for example, 0654321sc

- **CINAHL** is the best database for accessing scholarly literature in Nursing and Allied Health. It indexes more than 3,000 journals including 610 full-text journals.

- **MEDLINE** via EBSCOhost provides authoritative medical information on medicine, microbiology, nursing, psychiatry, public health, sports medicine, and more. You may also access this database for free from the NIH PubMed web site.

- **Films on Demand** provide streaming video access to over 2,000 videos in Health and Medicine. Each video contains a transcript, links to related videos and can be embedded into presentations.

- **Consumer Health Complete** is a consumer-oriented full text database. It covers topics such as aging, cancer, diabetes, drugs & alcohol, fitness, nutrition & dietetics, children's health, men & women's health.

- **Academic Search Premier** is a comprehensive scholarly database contains citations for more than 8,500 journals.

- **SciFinder** is the online version of Chemical Abstracts Databases. First time user will need to create an account by using your school email address.

The librarians are always here to help in person and online! You can visit the library, call the reference desk at 636-922-8620, using the chat box, or by email refdrop@stchas.edu.
