

I took HMS on a whim because it was interesting to me, and I was originally in education and just felt that wasn't the role for me. I would say I'm beyond glad I did and that Sylvia has been a key part in me finishing this stage of my degree. The classwork and the practicum experience consistently align, and I felt I went into them well-prepared and ready to take in real working experience. Sylvia not only chooses information that always proves to be helpful in my practicum and real working experiences but makes the classes something I would look forward to especially sharing my experiences and hearing everyone else's and comparing and learning together.

10) I would like to say thank you, Sylvia. I appreciate all of the hard work and time you put into teaching me these past two years. I am so thankful for the times you spent talking to me when things were getting difficult at home with my sister. I feel so confident in my abilities as a human service professional and I have you to thank for this. I can tell you love what you do and you love your students. I am forever grateful for my time at SCC and will be sure to keep in touch with you.
