Do I need to complete NELNET for each 8 week class?

You only need to complete Nelnet Deferred once per semester. If you are enrolled in mini-terms, you still only need to complete it once.

Will I be charged the enrollment fee?

If your attendance/participation cannot be verified, you are signed up for classes not covered by your award, or you have an outstanding balance toward the end of the semester, NELNET will turn into an actual payment plan and you will be charged the enrollment fee.

What if the Deferred option is not available?

If you are a financial aid and/or A+ student you will need to log out and contact the Enrollment Services Department to examine your file.

Why do I have to enter my bank account info?

This is SCC's back up in case a student does not attend their classes or your financial aid and/or A+ is not enough to cover your costs. If a student fails to attend class, the deferred option will turn into a payment plan at a later date and you will be charged the non-refundable enrollment fee in addition to your outstanding balance.

Will NELNET take money out of my account?

Financial aid and/or A+ students will only be charged if they have an outstanding balance or we cannot verify their attendance.

What if I don't have a bank account or credit card?

You will need to obtain a bank account or credit card in order to be held in your classes. There are no exceptions.

NELNET DEFERRED COMMONLY ASKED QUESTIONS

When will my deferred payment plan be cancelled?

Your NELNET account will be cancelled once your outstanding balance has been resolved (i.e. attendance verified or state funding received).

What if I already signed up for a regular payment plan and then my aid is finalized?

Contact the Business Office, 636.922.8361, to defer your payment plan. Awards will be posted to your student account once attendance/participation has been verified. A+ funds usually arrive from the state toward the end of the semester.

What happens if I don't enroll in NELNET?

Financial aid and/or A+ students that do not enroll in NELNET Deferred or pay their tuition/fees in full will be dropped from classes.

If my award is not enough to cover my charges when do I have to pay my remaining balance?

Immediately. This will ensure that no holds are placed on your student account that would prevent you from registering for classes or requesting a transcript.

Your attendance must be verified before any aid is disbursed. Failing or Dropping all of your classes in a single semester will result in a Return of Title Four (R2T4) calculation. An R2T4 calculation may cause you to return some or all of your aid for that semester. Any amount owed back will be deducted from the account you submitted in NELNET when you originally enrolled.
